Frances L. Palacio, Douglas R. Bloch, Carol Righi

October 1993 **Proceedings of the 1993 conference of the Centre for Advanced Studies on Collaborative research: distributed computing - Volume 2 CASCON '93**

Publisher: IBM Press

Full text available: [pdf\(432.28 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#)

This study compares two data collection tools to determine whether graphical and textbased observational systems yield different degrees of interobserver agreement, and different quantities of usability data. Consistency across observers is a necessary element of the reliability of data [3,10]. Additionally, increasing the quantity of data obtained in an observational study has a positive effect on the reliability of the data, and provides more complete information about the product being evalua ...

Quick Tips

- Enter your search terms in lower case with a space between the terms.

sales offices

You can also enter a full question or concept in plain language.

Where are the sales offices?

- Capitalize proper nouns to search for specific people, places, or products.

John Colter, Netscape Navigator

- Enclose a phrase in double quotes to search for that exact phrase.

"museum of natural history" "museum of modern art"

- Narrow your searches by using a + if a search term must appear on a page.

museum +art

- Exclude pages by using a - if a search term must not appear on a page.

museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.
